

Let us "stand in" with Virginia to the last dollar we can spare.

We suggest a meeting of the citizens of Reno early next week, for the purpose of forming an effective fire organization.

Reno forwarded to the Virginia sufferers night before last an immense amount of flour, hams, bread, bacon, cheese, etc., and if more is wanted will send wagons full of provisions.

We have no idea that Consolidated Virginia will pay any dividends for this month, or four or five to come, and Ophir and California, both on the eve of declaring divs. are now set back nearly a year.

Dr. LINDERMAN, it is reported, has estimated the gold and silver production of the country for 1876 at enormous sum of one hundred millions of dollars. The Virginia fire knocks that estimate all to pieces.

The Republicans will certainly carry Pennsylvania. Gov. Allen, of Ohio, is stumping that State for the rag money theorists. If Allen went there of his own accord he made a bad move, but if the Repubs. secretly intrigued to get him there it was a sharp political dodge.

It is well known to the President and to the Governments of Europe, that it is in the power of the United States to terminate the conflict in Cuba at any moment, and emancipate that island from Spanish control. The only question to be considered is whether the President would be justified by divine and human law. The President thinks he would. And so do we.

The Iowa Legislature which was elected on the 12th inst. so overwhelmingly Republican, elects a successor next Winter to Senator Geo. G. Wright of that State. It is now said the new Legislature is in favor of Secretary of War Belknap, for the position. Belknap is a shrewd politician, who seems to have known how to make his official patronage help his political prospects. With his War Department advertising and other patronage, he worked his claim to the Senatorship during his visits to Iowa with great effect.

The great four-mile race to come off on the 13th of November, for a purse of \$30,000, given by the Pacific Jockey Club, is anticipated with lively pleasure by all admirers of fast horses, as promising the most exciting contest ever witnessed on a California track. Horsemen especially are taking a deep interest in the coming event. The following famous runners have been entered for the race: Wild Idle, Grinstead, Katie Pease, Springbok, Rutherford, Revenue, Jr., Fannie Hall, Hock Hoeking, Chance. This list of flyers gives abundant assurance that the race will be a very satisfactory one.

POLITICAL RUMORS.

The telegraph brings some choice political gossip of affairs at the National Capital, in which this predicted breaking up of the Cabinet bears an important part. According to a *Herald* special: Vice President Wilson made a flying visit to Washington on Saturday, remaining only a few hours, and returning to New York. He came to see for himself the effect in political circles here of the appointment of Secretary Chandler to a seat in the Cabinet. The open break in the Republican camp caused by this appointment offers Wilson an opportunity for his own well-known ambition to be Grant's successor, and his visit was in the nature of a reconnaissance to learn the extent of the latest rebellion against Grant, which is so pronounced that to kill him off Senator Cameron would probably let the Pennsylvania election go by default. Furthermore, the early resignation of Postmaster General Jewell is predicted by his friends, his withdrawal from the office being the beginning of the breaking up of the Cabinet, which, it is believed, was apprehended as soon as Chandler was made Secretary of the Interior. The resignation of Mr. Jewell from the Cabinet would allow him to put himself, with a good grace, in the hands of his friends, who are desirous of securing him for the position of Vice President in 1876. The decapitation of Assistant Secretary Cowan on the return of Chandler from Michigan will be the signal for the resignation of Secretary Bristow, who will then, also, be free to accept the ministrations of his friends in furtherance of his nomination for President. All this shows the progress of the movement inside the Republican party against the control by the President, and indicates the strength of the Bristow-Jewell combination in the Cabinet. Doubtless the formidable aspect of this combination for a Republican ticket next year was too much for the peace of mind for Vice President Wilson, and hastened his speedy return East.

NEVADA STATE ITEMS.

Now the noble red man at Austin winds his blanket closely around his stalwart form, and wants to trade his linen duster for a bunch of matches.

Late bullion shipments embrace \$105,400 from the Consolidated Virginia mine, making a total of \$1,115,400 since the last dividend, \$4,350 from the Imperial mine on the 23d, \$12,700 from the Leopard mine and \$38,000 from the Ophir mine. The Chollar-Potosi mine turned out 300 tons of ore last week, assaying \$31.50 per ton.

The Bullionville railroad is being rapidly repaired and it is expected that in the course of the next ten days it will be completed between Pioche and Bullionville, and trains running between both places.

The Governor has commissioned Albert W. Hull as Commissioner of Deeds for the State of Nevada to reside at Forrestville, New York.

The regular amount of work goes on in Pioche with indications of renewed activity in mines now idle as soon as necessary arrangements are completed. Considerable outside work is being done in anticipation of a break in the weather before long.

The citizens of Cornucopia are preparing a petition to be presented to the Elko Board of Commissioners at its next meeting, asking that an appropriation be made to furnish that place with a calaboose in which to incarcerate certain of its citizens who engage in petty crimes.

AT THE LAST.—We shall have come down to the time when we have but ten days left, then nine days, then eight days, then seven days, then six days, then five days, four days, three days, two days, one. Then hours; three hours, two hours, one hour. Then only minutes left; four minutes, three minutes, two minutes, one minute. Then only seconds left; three seconds, two seconds, one second. Gone! The chapter of life ended. The book closed. The pulse at rest. The feet through with the journey. The hands closed from all work. No breath in the nostrils. The muscles still. The nerves still. The lungs still. The tongue still. All still. You might put the stethoscope to the breast and hear no sound. You might put a speaking trumpet to the ear, but could not break the deafness. No motion. No throbbing. No life. Still.—*Ex.*

THE VISIBLE PLANETS.

Their Positions, Appearance and Movements at the Present Time.

MERCURY

Is now rapidly approaching the sun, and will soon become invisible. The planet can be distinguished from a fixed star only by its bright red color and the fluctuating light which seems to be peculiar to this planet. When near the horizon it generally keeps up a continuous twinkling, not unlike that of the stellar orbs. Several eminent astronomers never saw this planet, and Copernicus himself is said to have lamented in his dying moments that he was never able to obtain a glimpse of Mercury. For many evenings the planet Mercury may be seen after sunset in the western heavens, low down toward the horizon.

VENUS

Which has been visible in our morning sky for several months past, will soon make her appearance as an "evening star." On Thursday, Sept. 23d, Venus was situated in her superior conjunction with the sun. This planet is gradually receding from that luminary towards the east, and will soon present a magnificent appearance in our evening twilight.

MARS

Is now the most conspicuous planet in the heavens. About nine o'clock in the evening he may be seen upon the southern heavens in the beautiful constellation Sagittarius. His motion is toward the east or direct, and he may be easily recognized by the reddish light with which he shines. Mars is now plainly visible throughout the entire night.

JUPITER

The "giant planet" Jupiter is at present very unfavorably situated for observation. Friday, November 5th, Jupiter will be situated in conjunction with the sun, after which he will become visible upon our eastern sky as a "morning star."

SATURN

What has been said of Mars will apply to the planet Saturn, as they are situated only a short distance from each other, Saturn being in Capricornus, the next constellation east from Sagittarius. Saturn shines with a pale white light, and will not be mistaken for a fixed star. The rings of Saturn may be perceived through an ordinary astronomical telescope.

URANUS

Is now in the constellation of Leo in good position for telescopic observations, but cannot be perceived by the naked eye unless its exact situation is known. When seen through an instrument of sufficient power the planet will show a sensible disc. It shines like a star of the sixth magnitude, with pale blue light.

NEPTUNE

This far off sentinel of the planetary system cannot be seen with the naked eye. Even by using good telescopes no satisfactory observation can be made on this planet at present. It appears as a star of the eighth magnitude, and one can recognize this orb only by detecting its motion, which is very slow.—*Carson Tribune.*

THE CENTENNIAL.—Philadelphia newspapers report rapid progress in the construction of the Centennial buildings. The Main Exhibition building is all up and roofed; the Machinery Hall is still more advanced, the floors being down and the painting nearly finished; the Art Gallery is raised, the dome completed, and work is going on in the inside; while the exterior of the Horticultural Hall is also finished. Work on the Agricultural Hall has been delayed, and only a part of the frame is yet up.

In regard to hotel accommodations for the great crowd of visitors who will flock to Philadelphia next year, not much can be said. Several mammoth hotels are talked of, one or two on the Centennial grounds. But it is evident that the hotel accommodations will be meagre, and far short of the demand. It is estimated that not less than six to ten millions of people will visit the Quaker City between the opening and closing of the "great show."

SPRING WAGONS.

KENT & WEEKS

Sole Agents for the Celebrated

DAVIS BROS. PATENT

COMBINATION SPRING PLATFORM.

For the State of Nevada.

The Best Carrying, Easiest Riding and Most Durable Wagon in Use.

The best carrying because of perfect Springs, and bearings at proper points to give the greatest strength. Easiest riding. A Wagon carrying 1500 lbs. rides as easy for one man as the best Phaeton. Most durable, because the combination of the Springs is such as to give perfect elasticity to the gear, thereby entirely obviating the sharp side motion and consequent strain on the wheels and other parts of the Wagon, allowing the Wagon to pass over all irregularities of the road without jarring or cracking the box, or jerking, or in any way to those riding. The binding of the axle, a necessity with all other Platform Wagons, is entirely obviated, allowing the Wagon to follow the road without crowding the team from side to side.

Our Wagons are manufactured from choice material, by the best mechanics, thoroughly painted, with fine finish and trim, and warranted. If you want a Family Wagon, a Peddler's Wagon, Market wagon, or a Wagon for any of the purposes for which the Platform or Democrat Wagon is generally used, see and try these Wagons and you will use no other.

RENO TO THE RELIEF.—An impromptu meeting was held in the school house last evening to take measures to aid the destitute of Virginia City. Just before the meeting the following telegram was sent by Messrs. Hagerman and J. C. Lewis: To Mayor Curry or Relief Committee: We are about to hold a Citizens' Relief Meeting. What do you need most?

The following answer was received:

"Cooked meats, doughnuts, cookies, etc."

RELIEF COMMITTEE.

The meeting was organized by electing J. C. Lewis President and J. S. Shoemaker Secretary. The following committee was appointed to ascertain what was needed and to call upon our citizens for aid, should any be needed: J. C. Hagerman, C. T. Bender and H. L. Fish. The meeting then adjourned.

Snow.—Yesterday the Sierras were enveloped with heavy, black clouds until evening, when they lifted and exposed the top of the hills, which were covered with snow. In Reno, but a few miles distant, we had plenty of wind, but no rain or snow. This is the first fall of the season. No doubt at the Summit the fall was considerable. Heavy clouds were still hanging over Truckee last evening, from which it would seem that they were having a spell of weather. A little rain fell here Tuesday night.

Loss.—By the failure of the Bank of Thos. Findley & Co., at Grass Valley, M. Nathan & Bro., of Reno, lost \$2,000. They have a branch store in Grass Valley and had that amount deposited in the bank when it collapsed. The Union is of the opinion that it may open again, that this is merely a temporary embarrassment. We hope so for the sake of the creditors, many of whom are poor, hard-working men.

EPRIZOOTIC.—This disease is now prevailing among the horses in the eastern portion of the State, and is a kind of horse influenza. It is not an imported disease this time, but it is believed to be the effect of atmospheric conditions. The horses on the Battle Mountain and Belmont and Eureka stage lines are affected, and its appearance may be expected here at any time.

No Stock Report.—Yesterday seven operators were as busy as they could be all the time attending to the business of the Western Union Telegraph line in the office here. The rush was so great that they could not get the stock reports, but they did manage to squeeze through the "streets" which will tell about how the market stood.

The Virginia Fire.—There is but little further to report of the Virginia fire. The loss is placed at from seven to ten millions. The Enterprise takes a hopeful view of the situation and says there is nothing to despair about. Prosperity will come back, it thinks, in a few weeks. We hope so.

The Enterprise was delivered to subscribers in Reno at the usual hour yesterday afternoon. The paper was enfolded considerable, but it was a feat for it to come out any size.

THANKS.—Mrs. Jamison feels very grateful to all who aided them on the night of the fire, and takes this method of showing that such assistance is remembered and appreciated.

CHANGE.—Mr. J. M. Venetta has bought out J. B. Henry. He will fix the old place up in good style, and have as neat a saloon as anybody.

The District Court convenes at 10 this forenoon. The term is drawing to a close.

SERVED HIM RIGHT.—Last Tuesday night the people of Virginia who were homeless were given shelter in every available place. One school house was filled with the unfortunates. A fiend, having the shape only of a man, with instincts which would disgrace the vilest beast, tried to set the school house on fire. Happily the wretch incarnate was discovered by the soldiers in guard and they riddled him with bullets. Good! The verdict of the world is, served him right. We can not find language forcible enough to express our detestation of such a viper.

REWARD.—A. J. Hatch offers a reward of ten dollars for the recovery of a red morocco pocket book. See the ad.

DARKER than a stack of black cats by six o'clock now.

Cure for Erysipelas.

We clip the annexed from the Sacramento Herald of Monday. To any of our readers who may have been or are liable to be afflicted with erysipelas, it will possess more than ordinary interest:

From time to time articles have gone the rounds of the press stating the value of the cranberry cure as applied in erysipelas, and so wonderful have the cures effected seemed that many are disposed to take the stories with a grain of allowance. But now we have a case in this city where a remarkable cure has been effected and the patient is around and able to testify to the wonder of the simple remedy. Judge Cantwell, of the Police Court, about two weeks ago, was taken down with an attack of erysipelas in the left leg and in a short time the disease increased to an alarming extent, running well up into the thigh. The usual poulticing with flax-seed, etc., was resorted to, but no relief was had, and the sufferings of the patient increased. Last Thursday, however, a friend suggested to him that he try the cranberry cure, whereupon the Judge got the berries, had them well bruised and applied to the injured limb, and after the poultice had been on but a few hours he expressed himself as experiencing greater relief than at any previous time during his illness. The remedy was continued and now the Judge has so far recovered as to be able to leave his room and take a carriage ride, and in a day or two he will be able to resume his official duties. Naturally he has now a strong faith in the curative properties of the cranberry and is loud in praise thereof.

JOHN SUNDERLAND STILL AHEAD.—John Sunderland has just returned from San Francisco with the largest and best selected stock of boots and shoes ever brought to Reno. He has goods to suit all prices and all people. He has a fine assortment of children's school shoes, which give more satisfaction than any shoe ever brought to this town. He is selling boots and shoes at panic prices. Call at his store and examine for yourself. He has also on hand and for sale, a fine assortment of shoemaker's findings, which he offers to the trade at a small advance over San Francisco prices.

REMOVED.—The Misses Vance are now located on Virginia street, next door to the photograph gallery. They will receive at their dressmaking establishment and make to order in the latest styles, all kinds of plain and fancy sewing.

TOWN LOTS FOR SALE.—Any person wanting town lots in an eligible location will find it to their advantage to call on C. A. Richardson.

FOR SALE.—Nels. Hammond has a house for sale. Inquire of him for particulars.

Let us "stand in" with Virginia to the last dollar we can spare.

We suggest a meeting of the citizens of Reno early next week, for the purpose of forming an effective fire organization.

Reno forwarded to the Virginia sufferers night before last an immense amount of flour, hams, bread, bacon, cheese, etc., and if more is wanted will send wagons full of provisions.

We have no idea that Consolidated Virginia will pay any dividends for this month, or four or five to come, and Ophir and California, both on the eve of declaring divs. are now set back nearly a year.

Dr. LINDERMAN, it is reported, has estimated the gold and silver production of the country for 1876 at enormous sum of one hundred millions of dollars. The Virginia fire knocks that estimate all to pieces.

The Republicans will certainly carry Pennsylvania. Gov. Allen, of Ohio, is stumping that State for the rag money theorists. If Allen went there of his own accord he made a bad move, but if the Repubs. secretly intrigued to get him there it was a sharp political dodger.

It is well known to the President and to the Governments of Europe, that it is in the power of the United States to terminate the conflict in Cuba at any moment, and emancipate that island from Spanish control. The only question to be considered is whether the President would be justified by divine and human law. The President thinks he would. And so do we.

The Iowa Legislature which was elected on the 12th inst. so overwhelmingly Republican, elects a successor next Winter to Senator Geo. G. Wright of that State. It is now said the new Legislature is in favor of Secretary of War Belknap, for the position. Belknap is a shrewd politician, who seems to have known how to make his official patronage help his political prospects. With his War Department advertising and other patronage, he worked his claim to the Senatorship during his visits to Iowa with great effect.

The great four-mile race to come off on the 13th of November, for a purse of \$30,000, given by the Pacific Jockey Club, is anticipated with lively pleasure by all admirers of fast horses, as promising the most exciting contest ever witnessed on a California track. Horsemen especially are taking a deep interest in the coming event. The following famous runners have been entered for the race: Wild Idle, Grinstead, Katie Pease, Springbok, Rutherford, Revenue, Jr., Fannie Hall, Hock Hoeking, Chance. This list of flyers gives abundant assurance that the race will be a very satisfactory one.

BRIEF NEWS ITEMS.

The rebellion in Panama has been suppressed.

The Cambridgeshire stakes were won by Sutton.

Heavy failures are reported in New York and interior cities.

Cardinal McClosky is to receive an imposing reception in London.

There was a fire in Hartford, Connecticut, yesterday. Loss, \$2,000.

The Grand Lodge of Odd Fellows is in session at Louisville, Kentucky.

Greyton, Michigan, has been attacked by insurgents and the Governor killed.

Onsdo, a trapeze performer, was killed in Cincinnati, by a fall, on Monday evening.

CARR TUNNEL.—Secretary Shoemaker publishes a gentle reminder to all delinquent stockholders in the Carr Tunnel that if they do not pay up next Monday their stock will be sold. Heed the warning.

POLITICAL RUMORS.

The telegraph brings some choice political gossip of affairs at the National Capital, in which this predicted breaking up of the Cabinet bears an important part. According to a *Herald* special: Vice President Wilson made a flying visit to Washington on Saturday, remaining only a few hours, and returning to New York. He came to see for himself the effect in political circles here of the appointment of Secretary Chandler to a seat in the Cabinet. The open break in the Republican camp caused by this appointment offers Wilson an opportunity for his own well-known ambition to be Grant's successor, and his visit was in the nature of a reconnaissance to learn the extent of the latest rebellion against Grant, which is so pronounced that to kill him off Senator Cameron would probably let the Pennsylvania election go by default. Furthermore, the early resignation of Postmaster General Jewell is predicted by his friends, his withdrawal from the office being the beginning of the breaking up of the Cabinet, which, it is believed, was apprehended as soon as Chandler was made Secretary of the Interior. The resignation of Mr. Jewell from the Cabinet would allow him to put himself, with a good grace, in the hands of his friends, who are desirous of securing him for the position of Vice President in 1876. The decapitation of Assistant Secretary Cowan on the return of Chandler from Michigan will be the signal for the resignation of Secretary Bristow, who will then, also, be free to accept the ministrations of his friends in furtherance of his nomination for President. All this shows the progress of the movement inside the Republican party against the control by the President, and indicates the strength of the Bristow-Jewell combination in the Cabinet. Doubtless the formidable aspect of this combination for a Republican ticket next year was too much for the peace of mind for Vice President Wilson, and hastened his speedy return East.

NEVADA STATE ITEMS.

Now the noble red man at Austin winds his blanket closely around his stalwart form, and wants to trade his linen duster for a bunch of matches.

Late bullion shipments embrace \$105,400 from the Consolidated Virginia mine, making a total of \$1,115,400 since the last dividend, \$4,350 from the Imperial mine on the 23d, \$12,700 from the Leopard mine and \$38,000 from the Ophir mine. The Chollar-Potosi mine turned out 300 tons of ore last week, assaying \$31.50 per ton.

The Bullionville railroad is being rapidly repaired and it is expected that in the course of the next ten days it will be completed between Pioche and Bullionville, and trains running between both places.

The Governor has commissioned Albert W. Hull as Commissioner of Deeds for the State of Nevada to reside at Forrestville, New York.

The regular amount of work goes on in Pioche with indications of renewed activity in mines now idle as soon as necessary arrangements are completed. Considerable outside work is being done in anticipation of a break in the weather before long.

The citizens of Cornucopia are preparing a petition to be presented to the Elko Board of Commissioners at its next meeting, asking that an appropriation be made to furnish that place with a calaboose in which to incarcerate certain of its citizens who engage in petty crimes.

AT THE LAST.—We shall have come down to the time when we have but ten days left, then nine days, then eight days, then seven days, then six days, then five days, four days, three days, two days, one. Then hours; three hours, two hours, one hour. Then only minutes left; four minutes, three minutes, two minutes, one minute. Then only seconds left; three seconds, two seconds, one second. Gone! The chapter of life ended. The book closed. The pulse at rest. The feet through with the journey. The hands closed from all work. No breath in the nostrils. The muscles still. The nerves still. The lungs still. The tongue still. All still. You might put the stethoscope to the breast and hear no sound. You might put a speaking trumpet to the ear, but could not break the deafness. No motion. No throbbing. No life. Still.—*Ex.*

THE VISIBLE PLANETS.

MERCURY

Is now rapidly approaching the sun, and will soon become invisible. The planet can be distinguished from a fixed star only by its bright red color and the fluctuating light which seems to be peculiar to this planet. When near the horizon it generally keeps up a continuous twinkling, not unlike that of the stellar orbs. Several eminent astronomers never saw this planet, and Copernicus himself is said to have lamented in his dying moments that he was never able to obtain a glimpse of Mercury. For many evenings the planet Mercury may be seen after sunset in the western heavens, low down toward the horizon.

VENUS,

Which has been visible in our morning sky for several months past, will soon make her appearance as an "evening star." On Thursday, Sept. 23d, Venus was situated in her superior conjunction with the sun. This planet is gradually receding from that luminary towards the east, and will soon present a magnificent appearance in our evening twilight.

MARS

Is now the most conspicuous planet in the heavens. About nine o'clock in the evening he may be seen upon the southern heavens in the beautiful constellation Sagittarius. His motion is toward the east or direct, and he may be easily recognized by the reddish light with which he shines. Mars is now plainly visible throughout the entire night.

JUPITER,

The "giant planet" Jupiter is at present very unfavorably situated for observation. Friday, November 5th, Jupiter will be situated in conjunction with the sun, after which he will become visible upon our eastern sky as a "morning star."

SATURN.

What has been said of Mars will apply to the planet Saturn, as they are situated only a short distance from each other, Saturn being in Capricornus, the next constellation east from Sagittarius. Saturn shines with a pale white light, and will not be mistaken for a fixed star. The rings of Saturn may be perceived through an ordinary astronomical telescope.

URANUS

Is now in the constellation of Leo in good position for telescopic observations, but cannot be perceived by the naked eye unless its exact situation is known. When seen through an instrument of sufficient power the planet will show a sensible disc. It shines like a star of the sixth magnitude, with pale blue light.

NEPTUNE.

This far off sentinel of the planetary system cannot be seen with the naked eye. Even by using good telescopes no satisfactory observation can be made on this planet at present. It appears as a star of the eighth magnitude, and one can recognize this orb only by detecting its motion, which is very slow.—*Carson Tribune.*

THE CENTENNIAL.—Philadelphia newspapers report rapid progress in the construction of the Centennial buildings. The Main Exhibition building is all up and roofed; the Machinery Hall is still more advanced, the floors being down and the painting nearly finished; the Art Gallery is raised, the dome completed, and work is going on in the inside; while the exterior of the Horticultural Hall is also finished. Work on the Agricultural Hall has been delayed, and only a part of the frame is yet up.

In regard to hotel accommodations for the great crowd of visitors who will flock to Philadelphia next year, not much can be said. Several mammoth hotels are talked of, one or two on the Centennial grounds. But it is evident that the hotel accommodations will be meagre, and far short of the demand. It is estimated that not less than six to ten millions of people will visit the Quaker City between the opening and closing of the "great show."

A Yankee has invented a milking machine that can be carried in a pocket book. Now if he were to invent a milch cow that could be carried in a coat tail pocket, his machine would sell more rapidly.

The following trotters have beaten 2:18: Golnamith Maid, 2:14, bred in New Jersey or New York; American Girl, 2:18½, bred in New York; Lulu, 2:15, bred in Kentucky; Occident, 2:16½, bred in California; Dexter, 2:17½, bred in New York; Gloster, 2:17, bred in New York.

A Chicago woman has advertised for "an honorable, honest gentleman for a husband."

NEW TO-DAY.

CARR TUNNEL NOTICE.

THE ATTENTION OF ALL STOCKHOLDERS in Carr Tunnel and Mining Company delinquent on assessment No. 5, is called to the fact that Monday, Nov. 1, 1875, at 2 o'clock, P. SPRING WAGONS.

KENT & WEEKS

Sole Agents for the Celebrated

DAVIS BROS. PATENT

COMBINATION SPRING PLATFORM,

For the State of Nevada.

The Best Carrying, Easiest Riding and Most Durable Wagon in Use.

The best carrying because of perfect Springs, and bearings at proper points to give the greatest strength. Easiest riding. A Wagon carrying 1500 lbs. rides as easy for one man as the best Phaeton. Most durable, because the combination of the Springs is such as to give perfect elasticity to the gear, thereby entirely obviating the sharp side motion and consequent strain on the wheels and other parts of the Wagon, allowing the Wagon to pass over all irregularities of the road without jarring or cracking the box, or jerking, or in any manner to those riding. The binding of the axle, a necessity with all other Platform Wagons, is entirely obviated, allowing the Wagon to follow the road without crowding the team from side to side.

Our Wagons are manufactured from choice material, by the best mechanics, thoroughly painted, with fine finish and trim, and warranted. If you want a Family Wagon, a Peddler's Wagon, Market Wagon, or a Wagon for any of the purposes for which the Platform or Democrat Wagon is generally used, see and try these Wagons and you will use no other.

United States Register's Summons.

IN THE U. S. LAND OFFICE OF THE DISTRICT OF CARSON CITY, NEVADA. No. 875. The people of the United States, to GEORGE W. ORRILL, greeting: You are hereby summoned to appear before me at my office, in Carson City, on the eighth day of November, A. D. 1875, at eleven o'clock, A. M., to answer the complaint of The Central Pacific Railroad Company averring your claim to lots numbered two (2) and three (3) of the Northwest fractional quarter of section fifteen (15) Township (19) north of range nineteen (19) east, to be unjust and illegal; and, then and there, do you show cause, if any there be, why the claim of said Central Pacific Railroad Company shall not be recognized as just and legal, and be allowed to enter the said land, failing in which judgment will be taken against you.

To the United States Marshal, or Deputized Citizen, greeting: Make service and return hereof. Given under my hand this thirteenth day of September, A. D. 1875.

MISCELLANEOUS.

DR. A. B. SPINNEY.
The Celebrated Specialist.

Well-known as founder of the Montreal (C. E. J.) Medical Institute and late Proprietor of the STANLEYVILLE INFIRMARY, would most respectfully inform his patients and the afflicted generally that he will continue to treat chronic and private disease with unparalleled success.

LADIES AND GENTLEMEN.
Remember, that procrastination is the thief of time, so

COME AND BE HEALED!
It matters not what your troubles may be, come and let the Doctor examine you. He will tell you nothing for nothing, so please call and satisfy yourselves. The Doctor understands your case. If he cures you he will tell you so; if not, he will tell you that, for he will not undertake a cure unless he is confident of effecting a cure.

YOUNG MEN!
Who may be suffering from the effects of youthful follies or indiscretion, we do not to save themselves of this, the greatest sorrow ever laid at the altar of suffering humanity. DR. SPINNEY will guarantee to cure all cases of weakness or private disease of any kind or character which he undertakes and to cure. He would therefore say to the afflicted, make effort, who may read this notice, that you are treading upon dangerous ground when you longer delay in seeking the proper remedy for your complaint. You may be the first to recover—remember you are saving your life, and you are suffering upon the last, and you are suffering from all the evil effects, remember that if you continue to persist in your procrastination, the time must come when the most skillful physician can render little or no assistance, as the door of hope will be closed against you; when no angel of mercy can bring you relief. In no case has the Doctor failed of success. He has not only cured the work itself, but your mind, too, by availing yourself of the beneficial results of his treatment before your case is beyond the reach of medical skill, or before grief and death hurries you to a premature grave.

MIDDLE-AGED MEN!
There are many of the people of thirty to sixty who are troubled with the disease of the bladder, often severe, and which gives smarting or burning pains, and a weakening of the system, and a general debility cannot account for it, on crutching the urinary deposits a rosy secret, which is often found, and some small, white, of albumen will appear, and the color will be of a thin and milky hue, and a tingling to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S. will guarantee a perfect cure in all such cases, and a healthy restoration of the genital-urinary organs, but an interview required in a majority of cases, balance of treatment can be conducted at home without interruption of business. All letters or communications, strictly confidential.

(Office Hours—10 to 1, 2 to 4, and 7 to 8. Sundays, from 2 to 4 o'clock. Consultation Free.)
Thorough examination and advice, \$5.00
